

EPA Refrigerant Change

Beginning December 1, 2017 we will begin replacing R-404A refrigerant with newly approved R-448A

- ▶ New regulation requires the Global Warming Potential be below 2,500 GWP
- ▶ Current remote design changes will include the use of scroll compressors and redesigned condensers
- ▶ Pricing will be available from Kolpak mid October and shipping will begin December 1, 2017
